PROFESSIONAL SUMMARY

Business Intelligence and Analytics leader with 8+ years building scalable data platforms, forecasting models, and executive dashboards that support revenue planning and operational decision-making. Experienced leading cross-functional analytics program, sales channel optimization, and consolidating fragmented data ecosystems into unified reporting systems used by 200+ stakeholders. Skilled in Snowflake, SQL, Python, and Power BI to automate reporting, improve forecasting accuracy, and accelerate data-driven decision-making across marketing, sales, and operations. Hands-on analytics leader combining data platform architecture, advanced analytics, and executive decision support.

TECHNICAL SKILLS

BI & Visualization Tools: Power BI, Looker, Qlik Sense, QlikView, Google Data Studio, Excel (Advanced)

Programming & Query Languages: SQL, Python, VBA, Power Query, DAX

Data Platforms: Snowflake, BigQuery, SQL Server (SSMS)

Analytics Platforms: GA4, Google Analytics, Meta Ads, Shopify, HubSpot, Klaviyo

Analytics Methods: Attribution, Predictive, and Correlation Modeling, Forecasting

Advanced Analytics: Experiment Design, Hypothesis Testing, Cohort Analysis, K-Means Clustering

Methodologies: Funnel Analysis, A/B Testing, Forecasting & Demand Modeling, Dashboards, PMP

EXPERIENCE

Advantage Solutions

Remote

Lead Data Analyst – Marketing Insight & Program Improvement

Oct 2021 – Present

| National Sales & Market Expansion | Channel Development | Team Leadership |

Led national analytics infrastructure supporting marketing, sales, and field operations performance across large retail programs.

- Built and maintained a national Power BI ecosystem on Snowflake, consolidating POS, field, compliance, and promotional data and standardized KPIs across five fragmented sales domains → reduced metric conflicts by 70% and improved finance–marketing alignment → enabled 250+ sales and operations users with near-real-time performance visibility
- Developed Python- and SQL-driven ETL pipelines consolidating 99+ vendor and internal data sources → reduced manual reporting workload by 160+ hours per quarter
- Translated C-suite and client requirements into semantic data models and automated ELT pipelines → reduced reporting cycle time from 5 days to 24 hours and contributed to 9% quarterly revenue growth.
- Mentored and collaborated with 7 regional analytics managers → drove analytics adoption, improved QBR forecast accuracy, and ensured consistent data usage across 250+ field staff
- Led post-merger data warehouse analysis supporting finance and operations teams → identified data inconsistencies and improved reporting reliability

BI Strategy & Analytics Manager

Oct 2017 – Sep 2021

| National Market Expansion | Channel Growth | Sales Strategy & Partner Management |

Led analytics initiatives supporting eCommerce growth, marketing performance optimization, and operational planning.

- Deployed cross-channel attribution framework (GA4, Shopify, Meta, Klaviyo) → improved funnel visibility and budget allocation → reduced CPA 18% and grew revenue 45% (FY19) + 85% (FY20)
- Led A/B testing program across product, content, and UX teams → increased site conversion 33%
- Developed lead-scoring and intent models using behavioral + source quality signals → accelerated high-value lead routing and improved sales efficiency
- Implemented demand forecasting dashboards aligning marketing, warehouse, purchasing, customer service across multiple data sources → reduced late shipments and improved promotion readiness
- Delivered executive performance dashboards for sales/marketing/ops → shortened feedback loops 40% and improved cross-team execution

China Unicom America

Los Angeles, CA

BI & Strategic Development Manager

July 2016 – Aug 2017

| International Sales & Market Expansion | Customer Partnerships | Channel Strategy & Collaboration |

Supported telecom market expansion initiatives through analytics, forecasting, and reporting automation.

- Built GTM pricing and demand forecast models → delivered \$2M+ revenue projections and guided enterprise sales targeting
- Partnered with sales + marketing to optimize channel rollout and partner strategy → expanded B2B client acquisition and strengthened market coverage
- Automated churn, usage, and performance reporting → improved pipeline visibility and reduced planning cycles 50%

Marshall Electronics

Torrance, CA

BI Project Analyst

Sep 2014 – May 2016

| Project Management & Product Launch | Consumer Electronics | Channel Development |

Managed analytics and reporting supporting international product launches and supply chain coordination.

- Drove 50+ international product launches across retail channels → generated \$5M annual sales
- Orchestrated QA, QC, engineering, marketing, and warehouse teams to localize products by region → improved channel adoption and compliance
- Engineered launch tracking dashboards for timelines, inventory, and sell-through performance, improving forecast accuracy and standardizing cross-functional KPIs, achieving a 95% on-time launch rate

Cadence Acoustic Ltd. / Deccon International Ltd.

Industry, CA

Senior Business Analyst

Jun 2010 – Jul 2014

| Project Management & Sales Operations | Consumer Electronics | Multi-Site Merger Integration |

Developed analytics systems supporting inventory forecasting and sales performance across global product lines.

- Migrated forecasting models from Excel to SQL-driven dashboards, improving inventory management and reporting accuracy across \$500M in product lines
- Managed BI systems supporting \$500M in active product lines; optimized inventory and sales forecasting across geographies and departments during a company relocation and post-merger integration
