EXPERIENCE

Advantage Solutions

Remote

Lead Data Analyst – Marketing Insight & Program Improvement

Oct 2021 – Present

Led national analytics infrastructure supporting marketing, sales, and channel development across large retail programs, driving national market expansion and team leadership across regional operations.

- Unified POS, field, compliance, and promotional data into a national Power BI + Snowflake ecosystem, reducing KPI conflicts by 70% and enabling near-real-time visibility for 250+ sales and operations users
- Engineered Python and SQL ETL pipelines consolidating 99+ vendor and internal data sources, eliminating 160+ manual reporting hours per quarter
- Translated C-suite requirements into semantic data models and automated ELT pipelines, shortening reporting cycle from 5 days to 24 hours and contributing to 9% quarterly revenue growth
- Mentored 7 regional analytics managers, improving forecast accuracy and ensuring consistent data governance across 250+ field staff
- Audited post-merger data warehouse, identifying reporting inconsistencies and improving data reliability for finance and operations teams

Modern Home Station

Remote

BI Strategy & Analytics Manager

Oct 2017 – Sep 2021

Led analytics initiatives supporting national market expansion, channel growth, and sales strategy across eCommerce, including partner management, marketing performance optimization, and operational planning.

- Deployed cross-channel attribution framework across GA4, Shopify, Meta, improving funnel visibility and reducing CPA by 18% while growing revenue 45% (FY19) and 85% (FY20)
- Led A/B testing program across product, content, and UX teams, increasing site conversion by 33%
- Designed lead-scoring and intent models using behavioral and source quality signals, accelerating high-value lead routing and improving sales efficiency
- Implemented demand forecasting dashboards aligning marketing, warehouse, purchasing, and customer service data, reducing late shipments and improving promotion readiness
- Delivered executive performance dashboards for sales, marketing, and operations, shortening feedback loops by 40%

China Unicom America

Los Angeles, CA

BI & Strategic Development Manager

July 2016 – Aug 2017

Supported international sales and market expansion through analytics, forecasting, and reporting automation, strengthening customer partnerships and channel strategy across B2B operations.

- Architected pricing and demand forecast models delivering \$2M+ revenue projections, guiding enterprise sales targeting
- Partnered with sales and marketing to optimize channel rollout and partner strategy, expanding B2B client acquisition
- Automated performance reporting, improving pipeline visibility and reducing planning cycles by 50%

Marshall Electronics

Torrance, CA

BI Project Analyst

Sep 2014 – May 2016

Managed analytics, project management, and reporting supporting international product launches, channel development, and supply chain coordination across consumer electronics.

- Drove 50+ international product launches across retail channels, generating \$5M in annual sales
- Coordinated QA, engineering, marketing, and warehouse teams to localize products by region, improving channel adoption and compliance
- Developed launch tracking dashboards for timelines, inventory, and sell-through performance, achieving 95% on-time launch rate

Cadence Acoustic Ltd. / Deccon International Ltd.

Industry, CA

Senior Business Analyst

Jun 2010 – Jul 2014

Developed analytics systems supporting inventory forecasting, sales operations, and multi-site merger integration across global consumer electronics product lines.

- Designed pricing and demand forecast models improving inventory management and reporting accuracy across \$500M in product lines
- Oversaw BI systems supporting \$500M in active product lines, optimizing inventory and sales forecasting during company relocation and post-merger integration
